

Currently there are a total of **518** families known to our Team – **380** families active and **138** waiting.

We are continuing to make children referred in 2022 active. We expect to have all 2022 referrals active on the team by the end of the year.

**89** % children of children who are 'active' have a current Individual Family Support Plan in place.

Assessment of Need (AON) continues to prioritised by the team as per requirement.
